Education

Shri Shankaracharya Technical Campus   May 2024
Bachelor of Science in Computer Science and Engineering (CGPA: 9.08)   *Bhilai, Chhattishgarh*

Gyandeep Higher Secondary School   Apr 2020
Mathematics (Percentage: 78.00)   *Janjgir-Champa, Chhattishgarh*

Projects

Juicy-N-Yummy | *Angular, Node.js, MongoDB*
- Led the development of a microservices-based food delivery platform for Juicy-N-Yummy.
- Designed and deployed a scalable RESTful API using NodeJS, Express, and MongoDB.
- Offer partners with a dashboard to manage their services including categories, food items, reviews etc.
- Modeled the platform's design and functionality based on Zomato, incorporating features like restaurant listings, user reviews, and detailed food item descriptions.
- Designed a partner dashboard similar to Zomato's, offering comprehensive tools for managing restaurant profiles, menus, and customer reviews.

Portfolio | *Angular*
- Designed and developed a personal portfolio website, showcasing a comprehensive collection of professional projects and skills.
- Utilized modern front-end frameworks, to create dynamic and visually appealing components, improving overall site aesthetics and functionality.
- Integrated interactive features such as project descriptions, and contact forms, enhancing user interaction.
- Utilized Angular's modular architecture to maintain a scalable and maintainable codebase, enabling future feature enhancements and expansions.

INO | *React Native, Firebase*
- Led the development of a React Native application allowing users to create profiles and add project titles, descriptions, and links, similar to Linktree, enhancing user engagement and providing a streamlined experience for showcasing personal projects.
- Implemented user authentication and profile management features, ensuring secure and personalized access to the app.
- Integrated Firebase for real-time data storage and synchronization, providing a reliable backend solution and enhancing app performance.

Technical Skills

Languages: C++, Javascript, Python, TypeScript, Dart
Technologies: ReactJS, Angular, jQuery, Bootstrap, Tailwind CSS, Node.js, Flutter, Django
Tools: Git, Docker
Platform: Github, Firebase, Figma, Postman API
Database: MySQL, MongoDB

Certificates

PCAP: Programming Essentials in Python(Cisco)
CPA: Programming Essentials in C++(Cisco)
Python Complete Course With Django And Flask Framework(Udemy)
Angular 12 - Complete Beginner's Guide 2021 [Step byStep](Udemy)
Complete Figma Megacourse: UI/UX Design Beginner to Expert(Udemy)
